PROFESSIONAL SUMMARY

Data Analyst with 2+ years of experience working with healthcare operational data and 3 years in medical practice administration. Uses SQL and Excel for data validation, analysis, quality checks and KPI reporting. Complements this experience with independent projects in Python, Power BI and forecasting.

PROFESSIONAL EXPERIENCE

Data Analyst | Healthcare Analytics & Data Operations | Mar 2024 - Present
Private Medical Practices Network | Buenos Aires, Argentina

- Use Excel and SQL to organize, clean and analyze appointment, attendance and billing data, supporting recurring KPI reports and operational reviews.
- Maintain and validate patient, appointment and health-insurance records across practice databases, identifying and resolving data inconsistencies.
- Perform quality checks and updates to operational records while supporting accurate reporting and confidential data handling.

Administrative Assistant | Medical Practice Operations | Mar 2021 - Feb 2024
Consultorio Barcala | Buenos Aires, Argentina

- Managed appointments, billing, prescriptions, documentation and patient records using Excel and clinical management systems.
- Verified record completeness, tracked schedule changes and supported day-to-day administrative processes.

TECHNICAL SKILLS

Analysis & BI: SQL, Microsoft Excel, Power BI, Power Query, KPI Reporting, Dashboards, Data Cleaning
Programming & databases: Python, pandas, PostgreSQL, Supabase
Data operations: Data Validation, Data Quality, Database Maintenance, Record Management
Currently learning: dbt, Snowflake, Data Warehousing, Dimensional Modeling, ETL/ELT

SELECTED PROJECTS

PARADIGM | Appointment No-Show Analytics - Python, SQL, pandas, Power BI
Prepared and validated approximately 12,000 synthetic appointment records; built SQL views, aggregations and a BI-ready analytical layer.

PROVIDENTIA | Healthcare Demand Forecasting - Python, pandas, statsmodels, LightGBM
Built and evaluated forecasting workflows using 30,747 records and 214 time series, with temporal validation and capacity-planning support.

SOMA | Healthcare Operations Platform - PostgreSQL, Supabase
Developed a data-backed platform for appointment scheduling, patient records, billing and documentation, with structured operational information.

EDUCATION & CERTIFICATIONS

Higher Technical Degree in Data Science & Artificial Intelligence - Instituto Superior Santo Domingo | In progress
IBM Generative AI Engineering Professional Certificate - Coursera | Sep 2026
Data Analytics Program - Coderhouse | Aug 2025
