

AGUSTÍN DELGADO

Data Analyst | SQL · Power BI · Excel · Python

Buenos Aires, Argentina | +54 11 5052-1473 | augusto.delgado00@hotmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Data Analyst with 2+ years of experience in healthcare analytics, working in a five-person team supporting multiple medical practices. Analyze patient attendance, appointment patterns and health-insurance utilization with SQL and Excel, while maintaining and validating patient data across practice systems. Brings 3 years of prior healthcare administration and operations experience. Uses SQL, Power BI, Excel and Python across professional analysis and applied Data/BI projects.

TECHNICAL SKILLS

Data & BI: SQL · Microsoft Power BI · Microsoft Excel · Python · pandas · Data Analysis · Business Intelligence · Data Cleaning

Reporting & Visualization: Dashboards · Reporting · Data Visualization · KPI Design · DAX · Power Query

Analytics & Modeling: Forecasting · Statistical Analysis · Time Series Analysis · scikit-learn · Predictive Modeling · Model Evaluation

Workflow & Data: PostgreSQL · Git · GitHub · Streamlit

PROFESSIONAL EXPERIENCE

Data Analyst | Healthcare Analytics

Mar 2024 - Present

Private Medical Practices Network · Contract · Ramos Mejía, Buenos Aires · Primarily Remote

- Work as part of a **five-person data analytics team** supporting multiple medical practices, reporting to a team lead and delivering recurring operational analysis.
- Use **SQL and Excel** to analyze patient attendance and appointment patterns, along with health-insurance utilization, to support scheduling and operational decisions.
- Maintain, validate and update patient information across medical-practice data systems, improving consistency and accuracy of operational records.
- Collaborate remotely with the team and attend periodic in-person meetings in Ramos Mejía to review data needs, findings and workflow changes.

Administrative Assistant | Medical Practice Operations

Mar 2021 - Feb 2024

Consultorio Barcala · Buenos Aires

- Managed scheduling, billing, prescriptions, documentation and patient records across day-to-day medical practice operations.
- Organized operational information with Excel and digital tools, tracked appointment changes / cancellations and supported recurring administrative controls.

SELECTED PROJECTS

PROVIDENTIA - Healthcare Demand Forecasting & Capacity Intelligence

Python · pandas · statsmodels · LightGBM

- Developed and compared ETS, SARIMA and LightGBM across **30,747 records and 214 monthly healthcare demand time series** using reproducible temporal evaluation.
- On the final holdout, SARIMA achieved **8.84% WAPE**, LightGBM **9.11%** and ETS **9.15%**, outperforming the Naïve baseline at **10.69%**; analysis also covered uncertainty and capacity-oriented decision support.

Paradigm - Appointment No-Show Analytics

Python · SQL · pandas · scikit-learn · Power BI · Streamlit

- Built an end-to-end analytics workflow on a synthetic dataset of **~12,000 appointments and 22 variables**, covering data cleaning, EDA, feature engineering, SQL views / joins / aggregations and a BI-ready analytical layer.
- Evaluated predictive models with a temporal train / validation / test design and delivered Power BI dashboards and KPI reporting to support operational decision-making.

Soma - Healthcare Operations Platform

PostgreSQL · Operational Data · Healthcare Workflows

- Data-backed platform for scheduling, patient records, billing, documents and operational workflows, with analytics to improve day-to-day visibility.

EDUCATION & CERTIFICATIONS

Higher Technical Degree in Data Science & Artificial Intelligence - Instituto Superior Santo Domingo

In progress

IBM Generative AI Engineering Professional Certificate - Coursera

Completed Sep 2026

Data Analytics Program - Coderhouse

Completed Aug 2025
